

Free Learning Resources

Overview

Learning Resources is a **free** tool that provides hundreds of learning exercises to help strengthen students' knowledge and gives teachers an increased ability to enhance student learning. Upon completion of ACCUPLACER® or TSIA2 testing, students are assigned Learning Locator™ codes that will deliver specific materials targeted to the growth areas identified on their Individual Score Reports (ISR). Educators can review Learning Resources and use the convenient "Assignment Sheet" feature to create collections of material **individualized** for their students, including their own uploaded resources.

How to Use Learning Resources

Begin by collaborating and brainstorming with key stakeholders at your institution. Think of ways you could use Learning Resources to complement your institution's programs and enhance the learning experience for your students. Some possible ideas include:

- Summer Bridge Programs
- Test Prep Sessions
- Remediation Prior to Retesting
- Corequisite Resource Tool

Next, think about the operational steps. Consider giving teachers and faculty "Site Reporter" platform access so they can develop plans to share student results via the following reports:

- Score Roster Report
- Placement Roster Report
- Custom Report

You can try out the [Learning Resources](#) for yourself by using the pass phrase ACCU_edu when creating your account. The TSIA2 user account creation pass phrase for [Texas Learning Resources](#) is TSIA2_edu. Reviewing the [Perspective User Guide](#) is also a great way to gain insight.

For More Information

The **Learning Resources Educator videos** provide an overview of the **benefits of the free Learning Resources tool** and steps on how to use this quick and easy resource in classrooms, tutoring centers, or other educational programs. The videos highlight how to access the tool, the ease for creating individualized and/or group assignments, and the overall benefits for students, educators, and your institution.

- The ACCUPLACER Learning Resources for Educators video is available in the "Resources/Learning Resources - Supplementary Remediation Material" section of accuplacer.org.
- The TSIA2 Learning Resources for Educators video is available on the home page of the [TSIA2 platform](#).

In addition, the [ACCUPLACER Student Portal](#) now contains Learning Resources videos for students that provide an overview of the benefits of the Learning Resources program. The videos highlight the free learning content that focuses on educational growth, helping students improve on topics that need the most engagement.
